Report of Independent Auditors

To the Board of Trustees of
The Frick Collection

In our opinion, the accompanying statement of financial position and the related statements of activities and cash flows present fairly, in all material respects, the financial position of The Frick Collection (the "Collection") at June 30, 2006, and the changes in its net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Collection's management; our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Collection's fiscal 2005 financial statements, and in our report dated December 13, 2005, we expressed an unqualified opinion on those financial statements. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The Frick Collection

Notes to Financial Statements

June 30, 2006

1. The Collection

The Frick Collection ("The Collection"), created in 1920 under the provisions of the will of Henry Clay Frick, operates an art museum (the "Museum") which is open to the public, and an art reference library (the "Library") which is available to fine arts scholars.

The Collection has been classified as a public charity as described in Sections 509(a)(1) and 170(b)(1)(A)(vi) of the Code and is exempt from federal income taxes. In addition, the State and City have classified the Collection as nonprofit in character and, as such, it is exempt from payment of income taxes to the State and City.

2. Summary of Significant Accounting Policies

Net Asset Classifications

The Collection reports information regarding its financial position and activities according to three classes of net assets: permanently restricted, temporarily restricted, and unrestricted.

- Permanently restricted net assets contain donor-imposed restrictions that stipulate the resources be maintained permanently, but permit the Collection to use, or expend part or all of the income derived from the donated assets for either specified or unspecified purposes.
- Temporarily restricted net assets contain donor-imposed restrictions that permit the Collection to use or expend the assets as specified. The restrictions are satisfied either by the passage of time or by action of the Collection.
- Unrestricted net assets are not restricted by donors, or the donor-imposed restrictions have expired. The Collection's Board of Trustees has designated a portion of the unrestricted net assets for fixed assets and long-term investment.

Summarized Information

The financial statements include certain prior-year comparative information which does not include sufficient financial statements and footnote disclosures to constitute a presentation in conformity with accounting principles generally accepted in the United States. Accordingly, such information should be read in conjunction with the Collection's financial statements for the year ended June 30, 2005, from which the summarized information is derived.

Measure of Operations

The Collection includes in its definition of operations all revenues and expenses that are an integral part of its programs and supporting activities. The measure of operations includes investment income equal to the 4.5% spending rate (net of related fees and taxes) and excludes investment return in excess of, or less than, the 4.5% spending rate. The measure of operations also excludes depreciation of fixed assets, permanently restricted contributions, purchase and sale of collections' items, unsolicited, individual unrestricted contributions of \$50,000 or more, which contributions are board designated for long-term investment as funds functioning as endowment and releases of net assets from restrictions related to non-operating items.

Contributions

The Collection records as revenue, cash and promises to give from individuals, corporations, foundations and government agencies. Conditional contributions are recognized as revenue when the conditions on which they depend have been substantially met. Substantially all of the Collection's grants and membership revenues are considered to be contributions for purposes of

The Frick Collection
Notes to Financial Statements
June 30, 2006

applying revenue recognition policies. Contributions are recorded at fair value, net of estimated uncollectible amounts.

The Collection records contributions as temporarily restricted if they are received with donor stipulations that limit their use either through purpose or time restrictions. When donor restrictions expire, that is, when a purpose restriction is fulfilled or a time restriction ends, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions (see Note 8).

The Collection has volunteers who provide administrative support to Library programs. Such contributed services do not meet the criteria for recognition of contributed services contained in generally accepted accounting principles and, accordingly, are not reflected in the accompanying financial statements.

Functional Allocation of Expenses

The costs of providing museum and library services and other activities have been summarized in Note 9. Museum programs include costs of the exhibitions, curatorial activities, public education and concerts. Library programs include provision of library access and service, book conservation, the maintenance of the photo archive, and administration of Library programs. General and administrative services include executive and financial administration, and an allocable portion of building maintenance, and security.

Fundraising activities of the Collection include salaries and employee benefits of program staff who develop proposals for fundraising; solicit contributions for those needs and for endowment purposes from individuals, corporations, government agencies and foundations; and conduct special fundraising events. Fundraising costs are expensed as incurred.

Collections

The Museum and Library have extensive collections of art including: paintings, sculpture, furniture and decorative arts, books, rare books, photographs, historical auction catalogues and other items. The collections are maintained under the care of the curatorial and library staff and are held for research, education and public exhibition in furtherance of public service rather than for financial gain. As a matter of policy, proceeds from the sales of collections are used to acquire other items for collections. The Collection does not include either the cost or the value of its collections on the statement of financial position, nor does it recognize gifts of collection items as revenues in the statement of activities. Since items acquired for collection by purchase are not capitalized, the cost of those acquisitions are reported as decreases in net assets in the statement of activities.

Cash and Cash Equivalents

The Collection considers all highly liquid investments purchased with an original or remaining maturity of less than three months at the date of purchase to be cash equivalents, with the exception of those money market funds, which are included as investments (see Note 4).

Investments

Security transactions are recorded on a trade-date basis. Investments are presented in the financial statements at fair value. For investments in debt and equity securities, fair value is determined using published market quotations. Investments in funds are valued at fair value as reported by the fund managers. Investments in limited partnerships and hedge funds, representing alternative assets invested in both publicly traded securities and less liquid securities, some of which are valued by the limited partnership or hedge funds after considering pertinent factors, are carried in the aggregate at fair value, where fair value represents the Collection's share in the net

The Frick Collection

Notes to Financial Statements

June 30, 2006

assets of those limited partnerships and hedge funds at the end of the Collection's fiscal year. The Collection believes that the carrying amount of its alternative investments is a reasonable estimate of fair value as of June 30, 2006. Because alternative investments do not have readily determinable market values, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investment existed, and such difference could be material.

Investments denominated in non-U.S. dollar currencies are translated into U.S. dollar equivalents at year-end spot foreign exchange rates. Realized gains or losses are determined using the average-cost basis of securities sold.

The Collection's investments are pooled to facilitate their management. Investment income is allocated among the individual components of unrestricted and temporarily restricted net assets, based on donor restrictions or in the absence thereof, using the dollar value unit method.

The Collection manages its pooled investments on a total return basis. To preserve the investments' long-term purchasing power, the Collection makes available to be spent each year 4.5% of the investment portfolio's average market value for the twelve quarters ending the March prior to the beginning of the fiscal year, net of applicable investment and custodial fees, (the "spending rate").

Fixed Assets

Land, building, significant building improvement projects and equipment expenditures in excess of \$2,000 are capitalized. Depreciation and amortization of buildings, building improvements and equipment is provided over the estimated useful lives on the straight-line basis, and is recognized as an operating expense. The estimated useful lives are as follows:

	Years
Building and building additions	28 to 50
Security systems	15
Furniture and equipment	5 to 10

Inventory

Inventory consisting of publications, prints and cards, is valued at the lower of average cost or market.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The more significant estimates made related to the collectibility of contributions receivable, the actuarial assumptions used to calculate pensions and other postretirement benefits and the valuation of alternative asset investments. Actual results could differ from those estimates.

Reclassifications

Certain amounts in the comparative fiscal 2005 total column in the statement of activities have been reclassified to conform with the fiscal 2006 presentation.

6. Pension & Other Post Retirement Benefits:

The Collection maintains a noncontributory defined benefit plan (the "Plan") covering substantially all employees. The Plan provides benefits based on salary and years of service. A participant who has five or more years of service is entitled to receive normal retirement benefits. In addition, any participant whose service is terminated and who has completed five or more years of service is entitled to a deferred vested benefit upon retirement based upon his final average compensation and credited service accrued to date of termination.

Plan assets are invested principally in mutual funds and corporate common stocks. The administrative costs of the Plan are borne by the Collection and amounted to \$242,150 for the year ended June 30, 2006. The Collection's funding policy is to contribute annually an amount that meets the minimum requirements of the Employee Retirement Income Security Act of 1974, under different assumptions from those used for financial-reporting purposes. In fiscal 2006, \$350,429 was contributed.

In addition to providing pension benefits, the Collection provides certain postretirement health and supplemental life insurance benefits for retired employees. Substantially all of the Collection's employees may become eligible for those benefits if they reach normal retirement age while working for the Collection. The Collection funds its postretirement benefits costs on a pay-as-you-go basis and provides for the expense on the accrual basis.

	Pension Benefits	Other Postretirement Benefits
Measurement date	June 30, 2006	
Prepaid (accrued) pension cost recognized in the statement of financial position	\$ 58,893	\$ (5,252,000)
Benefit cost	576,125	501,000
Benefits paid	701,536	145,660
Weighted-average assumptions as of June 30		
Discount rate used to determine benefit obligations	6.25 %	6.25 %
Discount rate used to determine net periodic pension cost	5.25 %	-
Expected long-term return on plan assets	8.00 %	-
Rate of compensation increase	4.25 %	-

For measurement purposes, a 10% percent annual rate of increase in the per capita cost of covered health care benefits for participants was assumed for 2006. The rates were assumed to decrease gradually to 4.75% for 2009 and remain at that level thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	1% Point Increase	1% Point Decrease
Increase (decrease) in APBO	\$ 722,000	\$ (606,000)
Increase (decrease) in sum of service and interest cost	129,000	(104,000)

**The pension plan's weighted-average asset allocation
at June 30, 2006 was as follows**

Money market funds	2.23 %
Fixed income funds	33.13 %
Domestic equity securities	47.44 %
International equity funds	17.20 %
	<u>100.00 %</u>
